SUMMARY

React Frontend Developer with hands-on experience building responsive, data-driven web applications using React.js, Redux Toolkit, and REST APIs. Proven ability to architect clean component structures, manage complex state, and deliver performance-optimized UIs. Actively seeking a Frontend Developer role to contribute to production-grade products.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Redux Toolkit, REST API Integration, React Router

Tools: Git, GitHub, VS Code, Tailwind CSS, Recharts, Vite

Concepts: State Management, Responsive Design, Component Architecture, Performance Optimization

PROJECTS

Smart Expense Analyzer

GitHub | Live Demo

React, Redux Toolkit, Tailwind CSS, Recharts, localStorage

- Built a full-featured expense tracking app supporting 10+ expense categories with real-time analytics dashboards.
- Implemented centralized state management using Redux Toolkit, reducing prop-drilling across 15+ components.
- Designed responsive UI with interactive Recharts visualizations, improving spending insight clarity for end users.

Employee Management System

GitHub

React.js, JavaScript, Local Storage

- Developed role-based dashboards (Admin & Employee) with task assignment and status tracking workflows.
- Implemented authentication logic and 10+ reusable UI components, reducing code duplication by ~40%.
- Persisted user sessions and task data using localStorage, ensuring state survival across browser refreshes.

EXPERIENCE

Aptech Ltd — Junior Server Incharge

Aug 2025 – Sep 2025

- Monitored 5+ servers to ensure 99%+ uptime during high-stakes online examinations.
- Resolved real-time technical issues in coordination with IT teams, reducing average resolution time.
- Maintained system stability under peak concurrent load across multiple examination sessions.

EDUCATION

B.E. Computer Science Engineering (AI & Machine Learning)

Nov 2022 – Present

Lokmanya Tilak College of Engineering, Mumbai
